

MS3780 Fusion

Omnidirectional Laser Scanner

Honeywell's MS3780 Fusion™ is an affordable hand-held omnidirectional laser scanner with single-line capability that increases retail checkout system efficiency with its automatic in-stand operation, optionally integrated EAS, and industry-leading scan performance.

Fusion combines omnidirectional and single-line laser bar code scanning into a lightweight, ergonomic hand-held form factor. The 20-line scan pattern provides superior scanning over existing single-line hand-held scanners making Fusion ideal for medium-volume retailers including specialty stores, pharmacies, liquor stores, and convenience stores.

An adjustable stand with 50° of tilt and three locking positions provides flexibility for the user to position the scanner for individual comfort and optimal performance. Stabilized with a weighted metal base, the stand may also be hard-mounted to counters or walls.

Fusion also includes CodeGate®, a Honeywell patented feature used in the highly successful Voyager® series. An integrated infra-red (IR) sensor automatically activates the laser when a bar code is present. The user then properly aligns the bar code before pressing the button, transmitting the data to the host. This feature provides the ability to pass over other bar codes, selecting only the required code. No other scanner offers this much control.

Standard features such as Flash ROM, MetroSelect® and MetroSet®2 programming, and user replaceable cables protect your investment by enabling Fusion to grow with you and your application requirements.

For more information on the MS3780 Fusion omnidirectional laser scanner, please visit www.honeywell.com/aidc.

Features

- Primary Omnidirectional Scan Pattern: Aggressive scanning in any orientation, increasing throughput
- Secondary Single-Line Scan Pattern: With a push of a button, switch to a targeted single-line for menu scanning applications
- Automatic In-Stand Detection: Hands-free operation for presentation scanning reduces operator fatigue
- Sleep Mode With IR Wake Up: Multiple sleep modes reduce power consumption, extending life and lowering cost of operation
- Optional Integration of RF EAS Antenna: Increases efficiency by simultaneously deactivating RF EAS tags and decoding bar codes

MS3780 Fusion Technical Specifications

Coperational Light Source Visible Laser Dlode 650 nm ± 10 nm Visual Indicators Blue = ready to scan; White = good read; Yellow = automatic scanning Host System Interfaces USB, RS232, Keyboard Wedge, IBM 46xx (RS485), OCIA Mechanical Dimensions (LxWxH) 189 mm x 65 mm x 73 mm (7.4" x 2.6" x 2.9") Weight 195 g (6.9 oz) Electrical Input Voltage 5 VDC ± 0.25 V Operating Power 1.4 W (275 mA @ 5 V) Standby Power 1.0 W (200 mA @ 5 V) DC Transformers Class 2: 5.2 VDC @ 1 A Laser/LED Safety Class 1: IEC60825-1, EN60825-1 EMC FCC Part 15, ICES-003, EN55022 Class B Environmental Operating Temperature -20"C to 40"C (-4"F to 104"F) Storage Temperature -40"C to 60"C (-40"F to 140"F) Hunidity 5% to 95% relative humidity, non-condensing Drop Designed to withstand multiple 1.5 m (5") drop Environmental Sealing Sealed to resist airborne particulate contaminants Light Levels 4842 Lux (450 foot-candles) Scan Performance Scan Performance Scan Speed
